HASTINGS COUNTY LAUNCHES DIGITAL PHOTO GALLERY ON WEBSITE

Hastings County: Hastings County is proud to announce the launch of a new Digital Photo Gallery on the County website, www.hastingscounty.com.

Hastings County would like to promote its natural beauty and diverse area to visitors of our website and is encouraging residents or visitors to Hastings County to share some of their pictures with the world.

“I believe that there are many beautiful pictures of our extraordinary County out there, and this will give the world an opportunity to see some of what Hastings County has to offer”, stated Warden Jo-Anne Albert. “We are hopeful that this will help to increase tourism by highlighting some of the better known points of interest in Hastings County as well as some hidden gems”, she added.

Opportunities are now available to submit pictures to be considered for inclusion on our website. Entries that are selected to be displayed will recognize the photographer on our website as well as identify the location of the picture. Entries will be accepted until September 30, 2010.

For full details on submitting digital photographs for consideration, please visit the County Services section of our website: www.hastingscounty.com.
