

Family Council Meeting

May 29, 2019

Meeting was called to Order at 13:00 Hrs. by the Chairman, with 7 members present.

Our first guest speaker was Carol BOYLE, Sales Clinician for First Quality Healthcare Group. She spoke on the new 'Pre Vail' incontinence products being used by the residences. Manor has entered in a contract changing the products to this company.

Carol had some sample products to show the members. The product has decreased plastic in them. They are more breathable and more absorbent.

Our second guest speaker was Cindy O'Brien from Activation Dept. Unfortunately her overhead projection format was unavailable so Cindy attempted to explain the Manors new 'Activity Pro' format verbally without the use of any aids. Through this family members are able to track the progress of their family member on line, especially the Activities they participate in.

Activation will provide the family member with the computer details – user name and password.

Cindy apologized for trying to explain it without her overhead and suggested they could return at a later date to explain much better when the system is up and running.

Family Council asked if she would be available for the June meeting and this date was agreed.

There was no other matters to discuss.

Adjourned at 13:50 Hrs.
